Professor Xiao  
President  
Guanghua Hospital  
Shanghai

Dear Professor Xiao;

I thank you very much for the opportunity to meet with you next week at your hospital.

Our company, Yodfat of Galilee has been active in the health relations between China and Israel. The Company arranges long and short-term programs for Chinese doctors in hospitals in Israel. We are also active in sending Israeli doctors to training programs in China.

We visited your hospital and we were deeply impressed by your high level and the dedication of your excellent team. Traditional Chinese Medicine has many followers in Israel that want to increase their knowledge in this important branch of medicine. We regard your hospital as a leading one also in this category and would like to begin a collaboration with you according to the following details:

E-mail: [daniel.litani@gmail.com](mailto:daniel.litani@gmail.com)  
Mobile: +972545824666

1. Our target is to organize groups of trainees from Israel to spend 3 months and 6 months training programs at your hospital in Traditional Chinese Medicine (TCM).
2. We would like to sign a MOU with organization that will outline the agreement between our company and your hospital for this purpose.
3. Training and accommodation of the participants will be in the hospital. Trainees can share a room of 2.
4. The hospital will issue a certificate that will be given to the trainees at the end of the training period.
5. Budget for 3 months training period will be discussed in the meeting it includes the studies, accommodation and one meal (lunch) at the hospital.
6. Trainees will have one long weekend (3 days) every three weeks for sightseeing in China (on their expense). One long weekend (4 days) in the middle of the training for another sightseeing in China (also on their expense).
7. Training program – will be made together with you – our idea is that each trainee should spend time in each department and study whatever he can in this department and then switch to another department. The communication must be in English – we will discuss it in our meeting.
8. When the trainee arrives to the hospital, he has to get a uniform with his name tag and his status (“trainee”). We will send you before all the CVs of the candidates and their areas of interest.
9. During the first day – you will have an orientation tour for the participants and show them all the relevant locations and departments.
10. Participants will be divided to small groups of 2-3 in each department depending on the overall numbers of participants. All these details can be worked together between us prior to the arrival of the participants to the hospital. This will depend on the number of the departments and number of participants from Israel. We are familiar with all the organization procedures and can help you to arrange it.

11. All applicants from Israel must have an entry visa to China.  
When we have the final list of participants, your hospital has to issue invitation letters that will be submitted to the Chinese Embassy in Israel for the issue of the visas to China

I thank you for your kind invitation to meet you and hope that we have a fruitful cooperation.

Sincerely

Daniel Litani  
Managing Director  
Yodfat of Galilee Ltd. Israel
