Title: Genetic and Epigenetic Alterations of Netrin-1 Receptors in Gastric Cancer with Chromosomal Instability
Journal: Clinical Epigenetics

Dear Dr Shicheng Guo,

Many thanks for your help with the above manuscript. Having taken into consideration the reports received, we are interested in considering this manuscript for publication in Clinical Epigenetics and have asked the authors to make the revisions requested by the reviewers.

Below this message I enclose the links to the first round of reviewer reports - if you have any problems opening the files please contact reviewer@biomedcentral.com.

Again, thanks for your help in reviewing the manuscript for us.

With best wishes,

Editorial contact
