Dear Dr Guo,

The authors of the manuscript "The impact of KIR polymorphism on the risk of developing cancer: not as strong as imagined?" have recently responded to you in the review forum. If you think that the authors' replies have addressed your comments and concerns satisfactorily, please click on "Endorse publication".

If you feel that your concerns were not sufficiently addressed, please let the authors know by posting further comments. Alternatively, should you not think that the manuscript can be adequately revised or should you not wish to take further part in the discussion, please click on "Withdraw from review/Recommend rejection."

Please take action in the discussion forum in the next few days. The forum is designed to allow more than one round of comments and replies, where appropriate, and comments are visible to all participants.

To view the manuscript and respond to the authors, please click on the following link:

<http://frontiersin.org/Review/EnterReviewForum.aspx?activationno=8bee3551-1c1b-40e5-b8f4-e24da573e36f>

(If clicking on the link doesn't work, try copying and pasting it into your browser.)

Should you require more time to submit your feedback, please do let us know by clicking on "Request Extension" on the review forum.

Manuscript title: The impact of KIR polymorphism on the risk of developing cancer: not as strong as imagined?
Manuscript ID: 168136
Authors: Danillo G Augusto
Journal: Frontiers in Genetics, section Cancer Genetics
Article type: Mini Review

Thank you very much for your expert contribution to the review of this manuscript. Please contact us if you need additional time to address the authors' responses.

Best regards,

Your Frontiers in Genetics team

Frontiers Review Guidelines:

To ensure an efficient review process, please familiarize yourself with the Frontiers review guidelines (link below). The Frontiers review process has unique features, including an interactive review stage, and a focus on objective criteria. Reviewers are named on publications they endorse to acknowledge their contribution.
